

BOARDwise

Onboard the Right Way

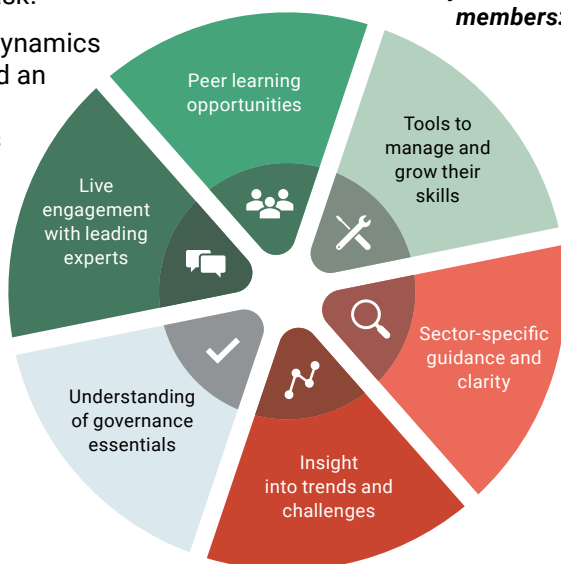

From Orientation to Governance Fluency in Five Sessions.

The stakes of board performance are high and developing an effective board is a delicate, difficult, and time-consuming task.

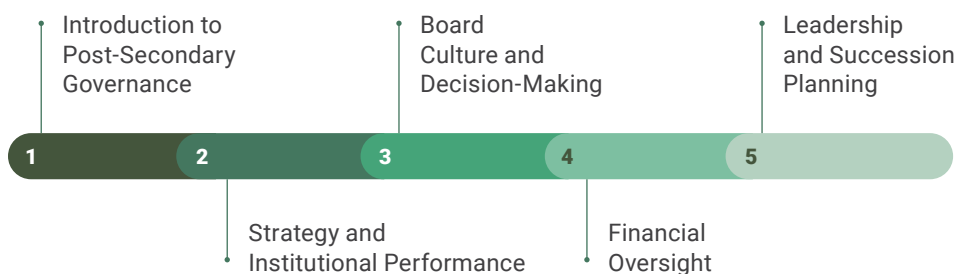

Understanding these complex dynamics is why **BoardWise** has developed an effective and engaging way to orient your new board members to the post-secondary sector.

Enroll new board members in **BoardWise Prep and Perform** – a program of virtual onboarding sessions tailored to the sector's specific governance needs. These sessions will bring your board up to speed quickly and with ease, so your board is ready to perform and grow with you.

BoardWise Prep and Perform will give your board members:

The **BoardWise Prep and Perform** program consists of five 2-hour virtual sessions conducted throughout the academic year.

By bringing together new board members from institutions across Canada, these sessions offer participants the opportunity to learn from experienced governance professionals and their peers in a structured, welcoming environment. Participants will:

- + Explore key topics and gain insight into how institutions are addressing key challenges
- + Build the skills and knowledge to perform effectively and develop their leadership potential
- + Forge meaningful connections with their peers from other institutions

BoardWise Prep and Perform operates on an institutional membership model.

Your institutional membership includes:

- Access to all **Prep and Perform** sessions throughout the year
- Up to five participating board members per session

Price per institution:
\$5,000 plus applicable taxes.

Because peer learning is a critical component of this curriculum, we will only deliver this program if a minimum of 8 institutions register.
